

Report XI

Volume 2008

November 12, 2008

H-NETTM NETWORKS

Product

As previously stated H-Net 6.0 is past development stages and has gone through cost reduction, extensive testing and built up a project ready inventory. This places the company in a unique position to enter contracts with no development cost. For more information regarding ConectiSys Corporation's H-Net 6.0 meter reading system and services visit www.conectisys.com.

Ongoing negotiations are in place, "it is only a matter of time before one of our opportunities comes to fruition, we are very excited going into 2009" says Robert Spigno, CEO. At this time, it is the utmost focus of the company's marketing resources to obtain a contract or demonstration by a third party. The company and its investors believe that the time for H-Net 6.0's market entry is nearing.

C-NESTTM NETWORKS

Our network operation center is again fully operational. All capabilities are back on line. For the most part, moving the NOC was seamless thanks to our more the efficient IT personnel.

Financing

The company has secured bridge financing for the balance of 2008. This accomplishment has opened many doors for current negotiations, and possible demonstrations/ contracts. The company is also pleased to report its current negotiation for long term financing in 2009; a press release following this milestone will take course once financing is secured in the near future.

Again new Phones/ contact

The main phone number for the company has changed. Please call 661-750-4621 at ext. 204 for all investor related inquiries. This number change is due to the company's decision to switch from standard phone lines to voice over IP technology.

C-NESTTM MARKETING

Log

Many opportunities have presented themselves for the company in the last quarter of 2008.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: The statements contained herein and in the Monthly Report that are not historical are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements including, but not limited to: the level of cost-effectiveness and efficiency of the Company's H-Net™ automatic meter reading products or technologies; changes in the Company's policies regarding communications with shareholders and the general public; the success or failure of the Company's marketing efforts and the particular efforts to be employed; the Company's ability or inability to commercialize, sell, license or further develop its H-Net™ automatic meter reading products or technologies; and other risks detailed from time to time in the Company's periodic reports and other filings with the Securities and Exchange Commission.
