### Why Nicaragua?

The Utility in Nicaragua has expressed their desire to modernize its energy distribution in Managua. The Company has been in close contact with their representative in Los Angeles California for the past several months discussing the H-Net™ solution and the potential benefits to the Utility as well as performing a successful live demonstration at their location.

After a long due-diligent period by parties ConectiSys, drafted a letter of Intent that at face value appears to be within the Utility's budget. The intent was then formalized to a Proposal for approximately Five Million US dollars...Press on the link to view [Exhibit-2](#) of the agreement:
