**CONNECTISYS H-NET™ PRODUCT RELEASE**

**Valencia, California**—Tuesday, February 5th, 2008—ConectiSys Corporation (OTCBB: CNES), a developer of automatic meter reading technologies, announced today that the Company will install by retrofit its new HNET™ 6.0 wireless Automatic Meter Reading technology at its project located in the Santa Clarita Valley in the City of Valencia, California. This installation includes live meter reads generated from designated meters.

Data Displays for this project are made available at the ConectiSys Website. Simply follow the link below. At Meter Data login please type the User ID CNES@ConectiSys.com and the password SantaClarita. Press the login button and view live meter reads for the [http://www.conectisys.com/UTCWeb/Meter-Data/B\\_Consumers/Search\\_Engine\\_Pages/index.php](http://www.conectisys.com/UTCWeb/Meter-Data/B_Consumers/Search_Engine_Pages/index.php).

Our ConectiSys network operation center offers to its customers; (1) consumption of electric energy in fifteen minute intervals, (2) identify and analyze their electric energy usage patterns, (3) minimize their exposure to excessive Time Of Use electric rates resulting in lower energy costs and (4) ultimately assist the customer in conserving their usage of electric energy through awareness of daily, weekly and monthly patterns of use. ConectiSys is the only AMR Company with the technology to enable its customer to receive real time electric energy consumption in a customer friendly graphical format.

ConectiSys CEO Robert Spigno commented. “The Santa Clarita project is just the tip of the iceberg. Additional H-NET™ MeterSystems are scheduled for installation this month where growth is eminent. I am anxious to bring our products to the industry. As some of you are aware the debut of our technology has been schedule this month at TechAdvantage Expo in Anaheim, California where industry players will see first hand the power of this cost effective AMR solution.”
