Email:

Dear Customer,

The Company is pleased to offer a product evaluation program free of charge for 60 days domestically. "See attached product brochures".

Our demonstration program provides One-BaseStation and Ten-MeterSystems forming a highly encrypted two way, plug and play wireless automatic meter read network known as the **H-NET™ Networks**.

- 1) The **H-NET™ Networks** provides secured password protected integrated service via the internet as follows:
 - 15 Minute Interval Record Displays 24/7
 - Energy consumptions comparables Graphs and Charts
 - Data Verification
 - Open Data Protocol for Client adaptability
 - Data Store and Feed Forward Transmission
 - Disaster Recovery Data Transfer
 - Power disconnect enabled

- 2) Assisted by ConectiSys; The Client provides as follows:
 - Demonstration location
 - BaseStation Installation
 - Meter Installation
 - Manual meter readers at a minimum of once per-week
 - Verify electronic time stamp consumption records with manual records

The intent of this proposal and live demonstration is to deliver an AMR Network to the prospective customer with a nominal effect to its operations throughout the product evaluation phase. At the end of the demonstration period "Phase I" the customer may elect either to pay for services, (see services brochure) deploy additional meters to form a larger AMR network "Phase II" (see pricing brochure) or simply remove meters and ship them back; shipping cost by ConectiSys, signifying the end of all obligations in this agreement by parties.
